

Streamline Your Operations, Amplify Your Profits: The Zitlin Solution

Product Brochure

v3.3

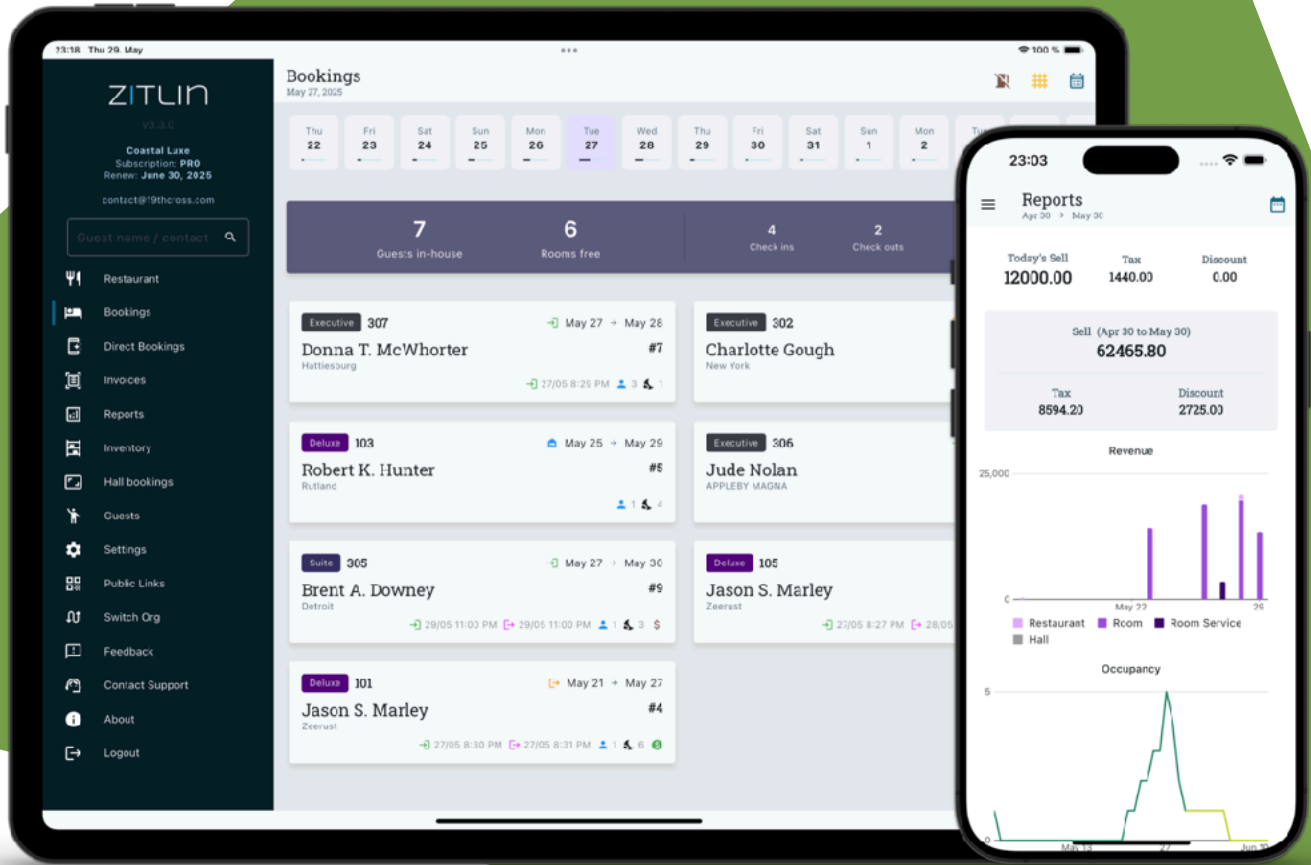

A modern lounge area with large, angular windows that offer a view of a city. The room is furnished with several armchairs in shades of brown and green, arranged around small tables. A single yellow spherical pendant light hangs from the ceiling. The overall atmosphere is bright and contemporary.

ZITLIN

Hotel Management System

Effortlessly manage
your hotel, restaurant,
and room service with
Zitlin's intuitive
platform. Our solution
is designed to help
you increase revenue,
reduce costs, and
enhance guest
experiences.

ZITLIN

ZITLIN

Inventory Management

Get organised and
know where your
things are!

Zitlin Inventory Tracking is a hotel and restaurant industry solution that provides real-time tracking of your goods. It is a powerful inventory management system that makes it easy to keep track of everything you stock in restaurants, storage and bars.

Features

- Centralised dashboard
- Configurable departments and locations
- Multiple metric systems
- Built in value calculator
- Low stock alerts
- Quantity change tracking
- Location based stock insights

ZITLIN

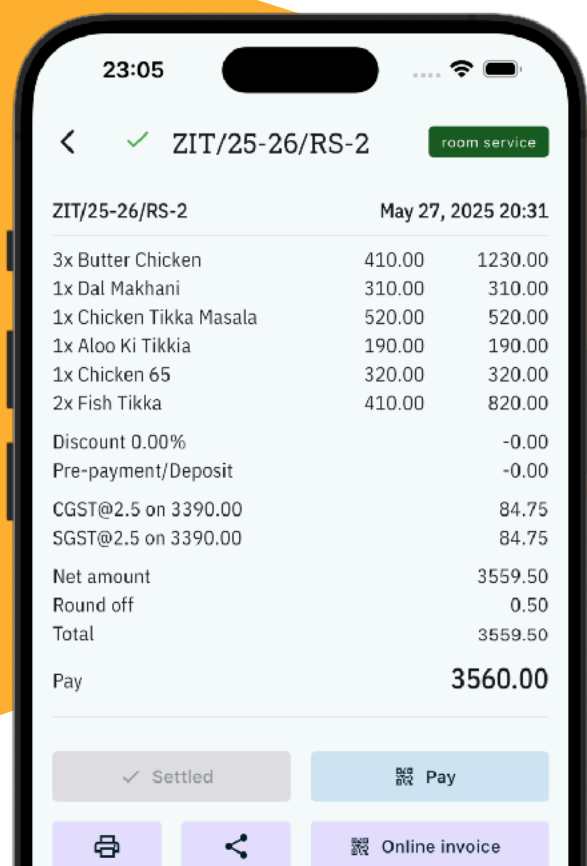

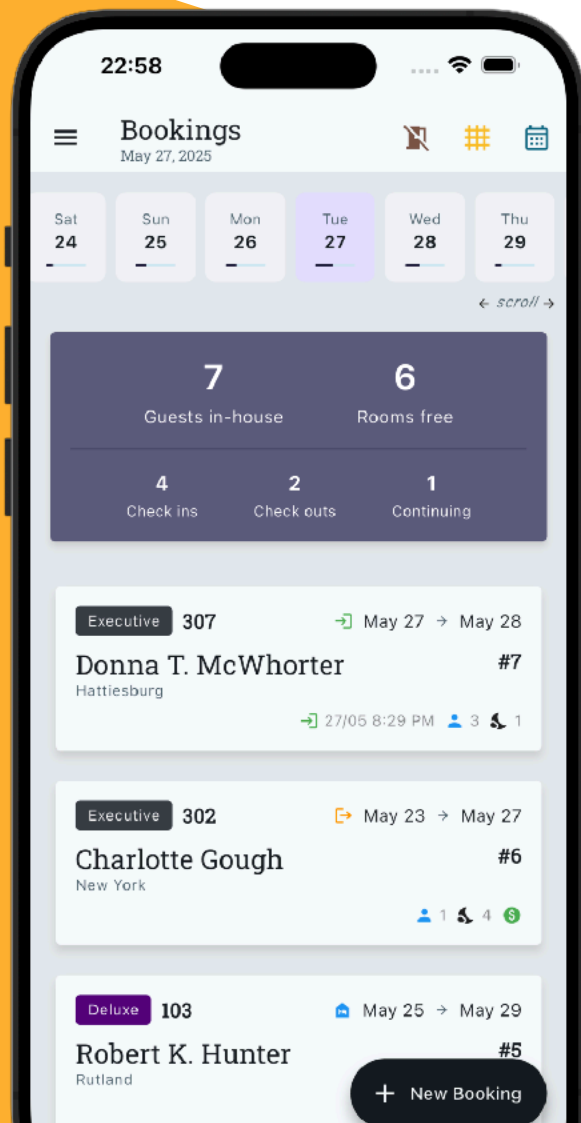

Guest Relationship Management

Engage with your
guests before,
during and after
their stay by sending
them automated
emails

Convert and retain your guests with scheduled reservation emails, enhance your communications and continue the conversation

Engage with your guests easily. Customise your communication flow. Learn more about guests needs and preferences before they arrive. Retain your guests to drive revenue and repeat bookings.

Invoicing and Accounting

Zitlin offers an efficient
hotel and restaurant
billing system

THANK YOU
Powered by zitlin.com
rsvid: 1591

Zitlin provides the ability to bill for room bookings and food in a user friendly and transparent way. The system is flexible and easy to use.

Key Features:

- Configurable invoice headers
- Multiple payment methods
- Tax and Service charge calculations
- Food and Room discounts
- Thermal printer support

ZITLIN

Banquet and Event Spaces

With Zitlin, you can easily manage your banquet and hall bookings, create invoices, and streamline your event management process

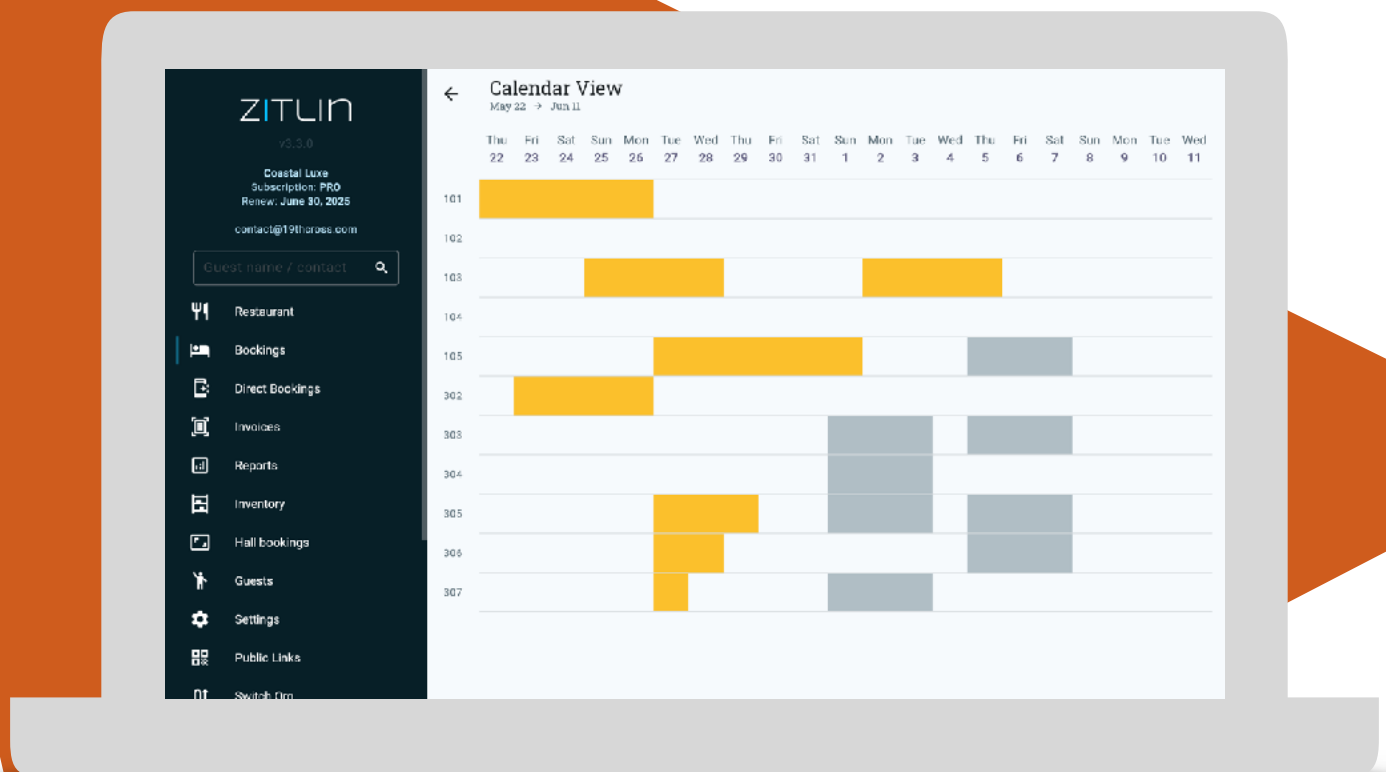

Clever Insights

Zitlin comes with
built-in analytics
that provides
insights you can
use to power
and increase
your sales

Metrics provide better evaluation of your company's growth. Analytics can change the way you build your business model, manage human resources and plan expenditures.

Zitlin helps you visualise key performance indicators (KPIs) for guest experiences, revenue management, restaurant menu performance, etc.
